

Jack for vans, 4WDs and minibuses

Accessories

1002 LF

Rubber pad protects the shape and coating of the lifting point.

3068 + 40mm

Saddle for extra height or accessing lifting points situated behind skirts, etc.

Low chassis height improves access to lifting points deep under most vehicles. Ideal for vans, 4WDs and minibuses.

Ergonomically designed handle for operator comfort. Rubber coated.

"Lift-and-turn" lowering system prevents unintentional lowering.

Additional foot pedal pumping feature provides fast saddle raising to the load.

Large diameter swivel wheels for easy handling.

Safety lowering control valve for safe lowering even under maximum load.

Powder coated finish.

Heavy duty fully welded structure in high quality steel.

Noise reducing nylon wheels.

Pressure relief valve prevents overloading.
