

HYDRO-PNEUMATIC JACKS

The ANT range of jacks offers clients a solution that is safe and easy to use, for all operations to lift earth moving, construction, quarry and mining machinery, where maintenance requires professional skills and expertise.

Available in various models, with lifting capacities from 30t-150t, each jack can be configured with a wide range of accessories to meet all requirements:

- Load blocking system;
- Remote control for working safely;
- Various extensions to suit all applications.

All models are hydro-pneumatically operated and equipped with a dual descent valve for greater control when bearing weight and automatic piston return; they can also be fitted with a manual emergency pump (on request).

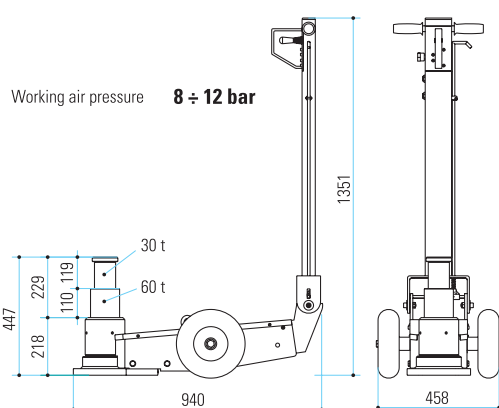

For effortless handling during use and transport, every ANT jack has:

- Folding handle;
- Wide pneumatic tyres;
- Special lifting points for transport.
